9.7 QUALIFICATIONS OF ENVIRONMENTAL PROFESSIONALS

Environmental Scientist

Tetra Tech EM Inc. - Sacramento

EDUCATION/SPECIAL TRAINING

B.S., Environmental Biology and Management, University of California, Davis, 2003

REGISTRATIONS/CERTIFICATIONS

40-hour OSHA Hazardous Materials Safety Training

QUALIFICATIONS

Mr. Strand has bachelor's degree in Environmental Biology and 3 years of professional experience as an environmental scientist. Mr. Strand's educational background and work experience has allowed him to perform work on a variety of projects, such as Phase I Environmental Site Assessments, Storm Water Pollution Plan preparation, ground-water sampling, and water quality studies. Mr. Strand has been successful working on federally and state funded projects, as well as those in the private sector.

RELEVANT EXPERIENCE

- Phase I Environmental Site Assessments Mr. Strand is currently part of a team of TtEMI scientists working for D.R. Horton Inc. in the completion of real estate due diligence reporting including Phase I and Phase II Environmental Site Assessments. His duties include conducting site reconnaissance, interviews with site representatives, regulatory list screening, hydrogeological characterization, historical records review, and report writing.
- Storm Water Sampling Mr. Strand is currently part of a team of TtEMI scientists working for the California Department of Transportation on numerous Storm Water monitoring projects. His duties include gathering samples at multiple monitoring stations, recording detailed information relating to each site (collection time, rainfall amount, etc), preparing samples for the lab (labeling, bottling, packaging, etc), preparing chain of custody paperwork and resetting monitoring stations.
- Storm Water Pollution Prevention Plan Mr. Strand has experience researching and developing storm water pollution prevention plans for various homebuilders in Sacramento, California and surrounding areas. His duties included assisting with research, writing, and organization.
- **Postgraduate Researcher/ Field Technician** While working for two research labs at the University of California, Davis, Mr. Strand maintained experiments for PHD and graduate students in a root biology lab and collected discharge measurements and water samples for an organophosphate monitoring program. His duties included maintaining databases, coordinating field operations, installing field monitoring equipment, field sampling, equipment servicing and map preparation using ArcGis.

EMPLOYMENT HISTORY

October 2006 – Present Tetra Tech EM Inc.

10860 Gold Center Dr. Suite 200 Ranch Cordova, California 95670

May 2005 – October 2006 Youngdahl Consulting Group, Inc.

EPA/AHERA Accredited Asbestos Project Designer, Management Planner, and Inspector NIOSH 582 - Sampling and Evaluation of Airborne Asbestos Dust

QUALIFICATIONS

Mr. Johnston has twenty years of experience providing and/or managing environmental, health and safety, industrial hygiene and engineering consulting services throughout the United States and, in recent years, internationally. This experience includes environmental and engineering site evaluation of investment grade commercial, industrial and residential properties on behalf of lenders, equity investors, pension funds, real estate investment trusts (REITs), insurance carriers, brokers, property and asset managers. Specific experience includes asset management, property condition assessments (PCAs), environmental due diligence, sampling design and implementation in a variety of media, data collection and interpretation, site auditing, site characterization, remedial design, cost estimating, construction monitoring, site closure and compliance reporting for a variety of environmental risks in a variety of environmental media and building materials including airborne contaminants, indoor air quality, microbial growth (mold), building materials (including asbestos, lead-based paint; soil; soil gas, groundwater). He has also conducted health and safety audits and developed U.S. Occupational Safety and Health Administration (OSHA) compliance plans for commercial, industrial and public sector clients.

As a Global Account Manager for Tetra Tech, Inc., Mr. Johnston is responsible for matching clients' needs with the breadth of Tetra Tech's services nationally and internationally and subsequent client management oversight of those consulting services. These services include environmental and engineering property evaluations, remedial design and implementation, site closure, and construction management and monitoring.

Previously, Mr. Johnston served as Vice President, Global Account Executive for Bureau Veritas North America, Inc. and as Director, Client Management Services for ATC Associates, Inc. He began is consulting career with Hygienetics Environmental Services, Inc. in 1989 as a Staff Scientist, serving in

several capacities during is 10+ year tenure including Regional Director of the Boston operation from 1994-1996.

RELEVANT EXPERIENCE SUMMARY

- Charged with leveraging US network of clients for global business expansion. Secured master service agreements with multiple US and global investors, providing environmental, engineering and construction management support. Generated and managed approximately 50 projects during initial 16 month period.
- As Principal-in-Charge, responsible for a select number of Institutional and Real Estate clients. Provide technical, managerial, and operational support to branch offices with the goal of providing consulting services and engineered solutions to meet clients' environmental and engineering needs.
- Direct profit and loss accountability for Boston office with a twenty two-person technical staff. Coordinated business development, facilitated professional development, and provided technical OA/OC.
- Created competitive work environment by proposing and implementing sales and business development incentive program facilitating participation by the entire technical staff.
- Managed projects with budgets ranging from \$1,000 to more than \$1,000,000 for industrial, commercial real estate, government/defense, and municipal client sectors. Conducted industrial hygiene, hazardous materials, and health and safety audits. Implemented environmental, health and safety, asbestos management, lead-based paint, noise and indoor air quality programs.

TECHNICAL PROJECT EXPERIENCE

- Generated, coordinated and provided technical QC of Property Condition Assessment (PCA) portfolio of approx. 185 self-storage facilities across seven western European countries. This project, completed for a pension fund advisor, included a budget and technical feasibility (plan & spec review for future portfolio expansion) during the expedited (four week) schedule.
- Provided environmental impact and environmental site assessments for a US-based equity investor planning to acquire one of the largest developers in Egypt. This portfolio included 20 parcels in various stages of development along coastal Eygpt.
- Involved with or reviewed thousands of Phase I and Phase II site assessments for both debt and equity lenders and investors. Additional acquisition and asset management services included cost estimating, underground storage tank (UST) management, lead and asbestos operations and maintenance (O&M) planning, indoor air quality (IAQ) investigations, and BTEX, TPH, and PCE contamination investigation, remediation planning and implementation.
- Prepared and executed sampling plan of office high-rise potable water systems, decorative water fountains and HVAC system and consulted with building engineers and asset/propety management staff to resolve tenant concern over potential work place exposure to legionnella.
- Generated and managed the construction monitoring and draw administration to represent equity investor's interest in multi-family developments in CA. Routine inspections and dialogue with all parties prevented the acceptance, storage and installation of compromised building materials and future mold claims.
- Provided tenant improvement (TI) and asset redevelopment support to asset and property managers on hundreds of projects encompassing asbestos, lead-based paint, PCB and mold inspection, abatement design, bid support and monitoring oversight to facilitate planned construction or in response to natural disasters and related insurance claims. Creative solutions to maintain building/tenant operations, occupancy and minimize business interruption were mission critical.
- Provided management or technical expertise during the investigation, corrective action plan, and/or remediation system design, installation and monitoring of UST sites and leaking UST sites.

- Secured contract for and managed environmental remediation to facilitate the demolition and redevelopment of two public sector and two private sector industrial facilities totaling more than three million square feet. Components included investigation, remedial design, and construction oversight of removal of storage tanks, stored chemicals, lead-based paint, polychlorinated biphenyls (PCBs), fly ash, asbestos, solid waste, and noise monitoring during facility demolition.
- Conducted compliance audits of process safety, confined space, lock out/tag out, emergency response, hazard communication, and training programs as part of audit team for industrial plant transforming production from soap/detergent to fuel additive manufacturing.
- Managed lead-based paint, PCB and asbestos consulting services contract encompassing approximately 200 sites as part of the Central Artery/Third Harbor Tunnel project. Since project inception in 1989, consulting fees have exceeded \$5M.
- Lead survey team on litigation support project for Attorney General's office providing comprehensive assessment, cost estimating, and depositions for over 120 state-owned (MA-DCPO) facilities.
- Developed Hazard Communication and Health and Safety Programs for Hygienetics' and UST remediation projects.
- Implemented Operations and Maintenance training program for a major New England developer and the NY/NJ Port Authority for the in-place management of asbestos materials.
