The "Critical Area" generally consists of all land and water areas within 1,000 feet beyond the landward boundaries of state or private wetlands, the Chesapeake Bay, the Atlantic coastal Bays, and all of their tidal tributaries. The "Critical Area" also includes the waters of and lands under the Chesapeake Bay, the Atlantic Coastal Bays and all of their tidal tributaries to

the head of tide. For information as to whether the property is located within the Critical Areas, Buyer may contact the local department of Planning and Zoning, which maintains maps showing the extent of the Critical Area in the jurisdiction.

Buyer is also advised that if all or a portion of the Property being purchased is wetlands, the approval of the U.S. Army Corps of Engineers will be necessary before a building permit can be issued for the Property. Additionally, the future use of existing dwellings may be restricted due to wetlands. The Corps has adopted a broad definition of wetlands which encompasses a large portion of the Chesapeake Bay Region. Other portions of the State may also be considered wetlands. For information as to whether the Property includes wetlands, Buyer may contact the Baltimore District of the U.S. Army Corps of Engineers. Buyer may also elect, at Buyer's expense, to engage the services of a qualified specialist to inspect the Property for the presence of wetlands prior to submitting a written offer to purchase the Property; or buyer may include in Buyer's written offer a clause making Buyer's purchase of the Property contingent upon a satisfactory wetlands inspection.
