

SECTION 10
RURAL AREAS DISTRICT - RA

Sec. 10.1 Intent, where permitted.

This district (hereafter referred to as RA) is hereby created and may hereafter be established by amendment of the zoning map for the following purposes:

- Preservation of agricultural and forestal lands and activities;
- Water supply protection;
- Limited service delivery to the rural areas; and
- Conservation of natural, scenic, and historic resources.

Residential development not related to bona fide agricultural/forestal use shall be encouraged to locate in the urban area, communities and villages as designated in the comprehensive plan where services and utilities are available and where such development will not conflict with the agricultural/forestal or other rural objective. Where development does occur, rural residents should expect to receive a lower level of service delivery than will be provided to residential developments in designated growth areas. In relation to residential development, agricultural/forestal activities shall be regulated only to the extent necessary to protect public health and safety.

In regard to agricultural preservation, this district is intended to preserve the county's active farms and best agricultural and forestal lands by providing lot areas designed to insure the continued availability of such lands for preferential land use tax assessment in order to enhance the economy, and maintain employment and lifestyle opportunities. In addition, the continuation and establishment of agriculture and agriculturally-related uses will be encouraged, and landowners will be encouraged to employ Virginia State Water Control Board best management practices.

(§ 20-10.1, 12-10-80, 11-8-89; § 18-10.1, Ord. 98-A(1), 8-5-98; Ord. 01-18(6) , 10-3-01)

It is intended that permitted development be restricted to land which is of marginal utility for agricultural/forestal purposes, provided that such development be carried out in a manner which is compatible with other purposes of this district. Roadside strip development is to be discouraged through the various design requirements contained herein.

Sec. 10.2 Permitted uses.

The following uses shall be permitted by right in the RA district, subject to the applicable requirements of this chapter:

The aggregate acreage devoted to such lots or development shall not exceed 31 acres, except in such case where this aggregate acreage limitation is precluded by other provisions of this ordinance. (§ 20-10.3.2, 12-10-80; 11-8-89; 9-9-92; § 18-10.3.2, Ord. 98-A(1), 8-5-98; Ord. 01-18(6) , 10-3-01)

Sec. 10.3.3 Rural preservation development.

Sec. 10.3.3.1 (Repealed 6-5-19)

Sec. 10.3.3.2 Intent; design standards.

The rural preservation development option is intended to encourage more effective land usage in terms of the goals and objectives for the rural areas as set forth in the comprehensive plan than can be achieved under conventional development. To this end, application for rural preservation development shall be reviewed for:

- a. Preservation of agricultural and forestal lands and activities;
- b. Water supply protection; and/or
- c. Conservation of natural, scenic or historic resources.

More specifically, in accordance with design standards of the comprehensive plan and where deemed reasonably practical by the commission:

- d. Development lots shall not encroach into prime, important or unique agricultural or forestal soils as the same shall be shown on the most recent published maps of the United States Department of Agricultural Soil Conservation Service or other source deemed of equivalent reliability by the Soil Conservation Service;
- e. Development lots shall not encroach into areas of critical slope or flood plain and shall be situated as far as possible from public drinking water supply tributaries and public drinking water supply impoundments;
- f. Development lots shall be so situated and arranged as to preserve historic and scenic settings deemed to be of importance to the general public and natural resource areas whether such features are on the parcel to be developed or adjacent to such parcel;
- g. Development lots shall be confined to one area of the parcel and shall be situated so that no portion of the rural preservation tract shall intrude between any development lots;
- h. All development lots shall have access restricted to an internal street in accordance with Chapter 14 of the Code of Albemarle;
- i. Nothing stated herein shall be deemed to obligate the commission to approve a rural preservation development upon finding in a particular case that such proposal does not forward the purposes of rural preservation development as set forth hereinabove and that the public purpose to be served would be equally or better served by conventional development.

(§ 20-10.3.3.2, 11-8-89; § 18-10.3.3.2, Ord. 98-A(1), 8-5-98)

Sec. 10.3.3.3 Special provisions.

In addition to design standards as set forth in section 10.3.3.2 and other regulation, the following special provisions shall apply to any rural preservation development:

- a. The maximum number of lots within a rural preservation development shall be the same as may be achievable pursuant to section 10.3.1 and section 10.3.2 and other applicable law. Each rural preservation tract shall count as one lot. In the case of any parcel of land which, prior to application for rural preservation development, has been made subject to a conservation, open space or other similar easement which restricts development on the parcel, the total number of lots available for rural preservation development shall not exceed the number available for conventional development as limited by any such previously imposed easement or easements;
- b. Section 10.3.3.3.a notwithstanding, no rural preservation development shall contain more than 20 development lots;
- c. Provisions of section 10.3.3, rural preservation development, shall be applied to the entire parcel. Combination of conventional and rural preservation development within the parcel shall not be permitted, provided that the total number of lots achievable under section 10.3.1 and section 10.3.2 shall be permitted by authorization of more than one rural preservation tract. Nothing contained herein shall be deemed to preclude the director of current development and zoning from approving a rural preservation development for multiple tracts of adjoining land, or on land divided or otherwise altered prior to the effective date of this provision; provided that, in either case, the provisions of section 10.3.3 shall be applicable;
- d. The area devoted to development lots together with the area of roadway necessary to provide access to such lots shall not exceed the number of development lots multiplied by a factor of six expressed in acres;
- e. No rural preservation development shall contain less than one rural preservation tract. The director of current development and zoning may authorize more than one rural preservation tract in a particular case pursuant to the various purposes of rural preservation development as set forth in section 10.3.3.2 or in accord with section 10.3.3.3.c, as the case may be;
- f. No rural preservation tract shall consist of less than 40 acres. Except as specifically permitted by the director of current development and zoning at time of establishment, not more than one dwelling unit shall be located on any rural preservation tract or development lot. No rural preservation tract shall be diminished in area. These restrictions shall be guaranteed by perpetual easement accruable to the County of Albemarle and the public recreational facility authority of Albemarle County in a form acceptable to the board. In accordance with Chapter 14 of the Code of Albemarle, the director of planning and community development shall serve as agent for the board of supervisors to accept such easement. Thereafter, such easement may be modified or abandoned only by mutual agreement of the grantees to the original agreement;
- g. Each application for a rural preservation development is subject to the review and approval of the director of current development and zoning.

(§ 20-10.3.3.3, 11-8-89; § 18-10.3.3.3, Ord. 98-A(1), 8-5-98; Ord. 04-18(1) , 5-5-04 effective 7-1-04)

Divisions of land shall be permitted as provided hereinabove; except that no parcel of land of record on the date of the adoption of this ordinance may be divided into an aggregate of more than five parcels except as provided in section 10.3.2 and section 10.5.2 hereof nor shall there be constructed on any such parcel an aggregate of more than five units.

(§ 20-10.5.1, 12-10-80; 11-8-89; § 18-10.5.1, Ord. 98-A(1), 8-5-98)

Sec. 10.5.2 Where permitted by special use permit.

The board of supervisors may issue a special use permit for more lots than the total number permitted under sections 10.3.1 and 10.3.2; provided that no such permit shall be issued for property within the boundaries for the watershed of any public water supply reservoir, and further provided that no such permit shall be issued to allow more development lots within a proposed rural preservation development than that permitted by right under section 10.3.3.3(b).

The board of supervisors shall determine that such division is compatible with the neighborhood as set forth in section 33.8 of this chapter, with consideration of the goals and objectives of the comprehensive plan relating to rural areas including the type of division proposed and, specifically, with consideration of the following:

1. The size, shape, topography and existing vegetation of the property in relation to its suitability for agricultural or forestal production as evaluated by the United States Department of Agriculture Natural Resources Conservation Service or the Virginia Department of Forestry.
2. The actual suitability of the soil for agricultural or forestal production as the same is shown on the most recent published maps of the United States Department of Agriculture Natural Resources Conservation Service or other source deemed of equivalent reliability by the Natural Resources Conservation Service.

-

 4. If located in an agricultural or forestal area, the probable effect of the proposed development on the character of the area. For the purposes of this section, a property shall be deemed to be in an agricultural or forestal area if 50 percent or more of the land within one mile of the border of such property has been in commercial agricultural or forestal use within five years of the date of the application for special use permit. In making this determination, mountain ridges, major streams and other physical barriers which detract from the cohesiveness of an area shall be considered.
 5. The relationship of the property in regard to developed rural areas. For the purposes of this section, a property shall be deemed to be located in a developed rural area if 50 percent or more of the land within one mile of the boundary of such property was in parcels of record of five acres or less on the adoption date of this ordinance. In making this determination, mountain ridges, major streams and other physical barriers which detract from the cohesiveness of an area shall be considered.
 6. The relationship of the proposed development to existing and proposed population centers, services and employment centers. A property within areas described below shall be deemed in proximity to the area or use described:
 - a. Within one mile roadway distance of the urban area boundary as described in the comprehensive plan;
 - b. Within one-half mile roadway distance of a community boundary as described in the comprehensive plan;
 - c. Within one-half mile roadway distance of a village as described in the comprehensive plan.
 7. The probable effect of the proposed development on capital improvements programming in regard to increased provision of services.
 8. The traffic generated from the proposed development would not, in the opinion of the Virginia Department of Transportation:
 - a. Occasion the need for road improvement;
 - b. Cause a tolerable road to become a nontolerable road;
 - c. Increase traffic on an existing nontolerable road.
