# SANTA GERTRUDIS IS

## DATA DRIVEN

- › First *Bos indicus*-influenced breed to offer GE-EPDs.
- › First beef breed to implement “single-step” methodology.
- › 30 years of data collection = comprehensive genetic evaluation.
- › 11,000+ genotypes in SGBI data set – one of the largest for a *Bos indicus*-influenced breed.
- › Full range of growth and carcass EPDs = targeted selection and genetic progress.

## PROFIT PROVEN

- › Produce crossbred commercial females sought by cattlemen everywhere.
- › Adds profitable heterosis to any production system.
- › On-test gains of 3.5+ lb. ADG = efficiency, profit.
- › Adaptability, heat and parasite tolerance, disease resistance and increased longevity = more profit.
- › Igenity® *Santa Gertrudis* aids in commercial replacement heifer selection.

**SANTA GERTRUDIS**  
The Data Driven, Profit Proven  
choice for today’s beef industry.

# Sale Terms & Conditions

---

Except for those stated in the below terms and conditions, there are no warranties, either expressed or implied, as to the merchantability or fitness for a particular purpose with respect to the cattle being sold at this auction.

**TERMS:** Terms of sale are cash or check payable at sale location.

**DISPUTES:** Each animal will be sold to the highest bidder. In case of disputes, bidding will be reopened between the parties involved.

**HERD HEALTH:** Each animal must have an individual health certificate indicating a clean test for Brucellosis (Bangs) and Tuberculosis (TB) within 30 days of the sale. Cattle from certified and accredited herds do not require tests, but an interstate certification of veterinary inspection (ICVI) is still required.

**PURCHASER'S RISK:** Each animal becomes the risk of the purchaser as soon as sold. Animals will be cared for at the purchaser's risk for a reasonable length of time.

**ANNOUNCEMENTS:** Announcements from the auction block will take precedence over the printed matter in this catalog. Buyers are therefore cautioned to pay attention to any such announcements.

**BREEDERS GUARANTEE:** Cows represented as being pregnancy tested "safe in calf" have been examined and declared safe by a licensed veterinarian and will be accompanied by a veterinarian's certificate to this effect. They are considered breeders without further guarantee. Cows with calves at side shall be considered breeders also without further guarantee. Cows and heifers represented as "bred" are not guaranteed safe in calf, but they and open heifers selling as individual lots are guaranteed breeders. No guarantee shall apply to suckling calves. No guarantee is given that a pregnant female will deliver live calves or that she will carry calves full term. The seller is not responsible for damages caused by foreign bodies after the animal has been sold and for sickness not apparent at sale time. Bulls sell with satisfactory semen test within 30 days of sale.

**ACCIDENTS:** Although every precaution will be taken to protect the safety and comfort of buyers, neither the Sales Management, Auctioneer nor seller assumes any responsibility in this manner and denies any liability, legal or otherwise, in the event of accident or loss of property.

**LIABILITY:** The Sales Management and/or Auctioneer has been employed by the consignor(s) of the animals being sold solely for the purpose of advertising and conducting the subject sale. All information regarding the subject animals as published in the sale brochure and as announced at the sale is based on the representation made to the Sales Management and/or Auctioneer by the consignor(s). The Sales Management and/or Auctioneer has not made any independent investigation to verify title, health, registration and lien status of the subject animals. The Sales Management and/or Auctioneer make no representations, either expressed or implied, as to whether or not the subject animals are security under any lien, legal or equitable.

# Carcass with Quality

At Five J's Cattle & Beef, we strive to be at the forefront of the changing beef industry using high-marbling bulls that produce high-quality carcasses and the phenotype needed by registered breeders.
