W/a Granville tumbler, sand lugs may move up a grade or two.

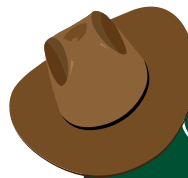

With grains standing tall, JD combine will do their part to put \$\$\$ on the hip.

There are right many Granville conveyors on this auction to make an operation efficient.

Keep the truck on solid ground all the time w/a 510 hauling.

Carries that tobacco higher than a giraffe's back, falls just right into the Granville baler.

One thing is quite clear – Taylor barns will cure the golden leaf to bring the premium

Green leaf crew will be moving all the time w/Wilson trailer hauling to them.

Hopper bottoms like this are worth the ride.

One thing about a chassis dump trailer, they can stand the off-road treatment & -U-don't draw up as bad when -U- dump them!
