## AUCTIONEER'S NOTE

**Edwards & Foster has been a leader in ag farming** for the past 50 years on the cutting edge of farming – technology all the way from 1-row & stick barns to 6-row & bulk barns. Roger Edwards (dec.) & Raymond Foster were the kind of farmers when they made a change in their crops other farmers would always stop & look & follow suit. Harold Edwards, son the late Roger Edwards, has followed in his daddy's footsteps with farming & equipment maintenance program. All equipment has been kept up by the highest standards. All engine oil & filters changed on a regular time schedule as the hour meters called for & kept clean. It's the kind of equipment that buyer will be proud of.
