**(10) Angus based open heifers**, average 1175# on 8-15-25.

**(9) Angus based open cows, (1) Angus based bred cow.**

**All cattle will carry** Springfield Angus & Yon Angus genetics.

**Jim Stocker** always said he was in the beef business producing a delicious product for the consumer off of forages. He picked the best bulls that he could find to build this program. Mike, his son, is continuing with this same format. Here is an opportunity to start with some of the best or add the top of the line to your herd. The homework has all been done for you.

**Note:** This is a rare opportunity to buy this kind of genetics to take home or send to the feed yard, whichever you choose. These are very uniform cattle. This is over 31 years of data & selective breeding for farmers to take home & have a great herd from to last for many decades to come.

**Check internet on Friday for sale order & have the ones you want marked.**

**Load Out Sale Day** excludes the steers, they will load off the farm.

These cattle are bred the for humid weather in the south-east still enjoy the shade every now & then.

Raising the standard right here.

When there are no How To Manuals start here.

When the work is all done buy here.

Each step is important – it's the right one here.
