Also, from jct. of Hwy. 96 & 56 @ Wilton, take Hwy. 96 north 2 miles, turn right on Cannady Mills Rd., arena approx. 6 miles on right. Watch for cattle auction arrows leading way to sale.

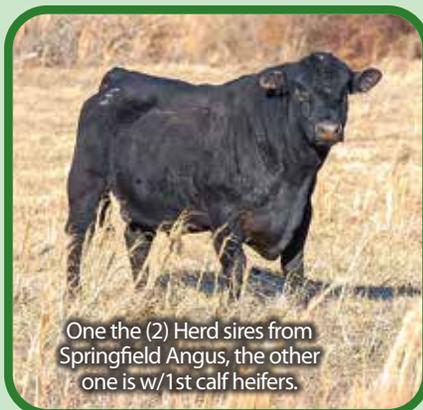

**SALE SITE ADDRESS:** 4200 Cannady Mill Road – Oxford, NC 27565

Sire: War Party 2417 – Dam: Rita IW47 of Rita 9G24 9M25 w/ Springfield Angus bull calf @ side.

The thickness says it all – soggy.

One the (2) Herd sires from Springfield Angus, the other one is w/1st calf heifers.

Selling (175) head of purebred & commercial Angus that consist of (20) 1<sup>st</sup> calf heifer pairs, (20) bred heifers, (60) mature cows – 2<sup>nd</sup> calvers & up – ¼ of these will sell as pairs, remaining selling as splits & 3-n-1, (25) weaning size heifers, (8) weaning size bulls, (2) mature Springfield Angus herd sires, (4) 2-yr. old bulls, (4) 1 ½ yr. old bulls. Marty started the herd in the 1980's. He started his herd by purchasing his first heifers from D. S. Moss – Enfield, NC. He added females from J. R. Fowler – Wakelon Angus, Wehrmann Angus – New Market, VA, Locust Level Farms – Mike McDowell, & Springfield

Angus – Louisburg, NC. He used herd sires from Springfield Angus, Knollcrest Farms, & AI with a lot of the known leading sires. There are several Pathfinders in this herd. As time went along Marty was a partner with The Partners Sale – Roger Lane, J.F. Lancaster & Marty. He had bulls on the NC Performance Bull Test Sale. Marty used the following standards when selecting seed stock – growth, maternal ability, feet, calving ease, docility, and at the same time keeping in mind the hot humid southeast & available forages. Cattle are on an annual vaccination program, all foraged based wintered mostly on hay &

protein tubs. Two herds of these cattle have been on short forages & could carry a lot more body condition, therefore if you have feed supply come spring of year, you will see a big difference in them. The herd across the road from Marty's home have ample forages & are in good body condition. There comes a time to build & a time to disperse & Marty & Lynne have reached the time to disperse.

**MVE xc 20/20** semen tank

**All Cows Will be Screened for Reproductive Soundness.**

Marty spends time w/the cattle each day making sure they have interactions w/humans.

Great udder w/the right thickness. I'll say we can match papers w/her.

She is a traffic stopper for sure.

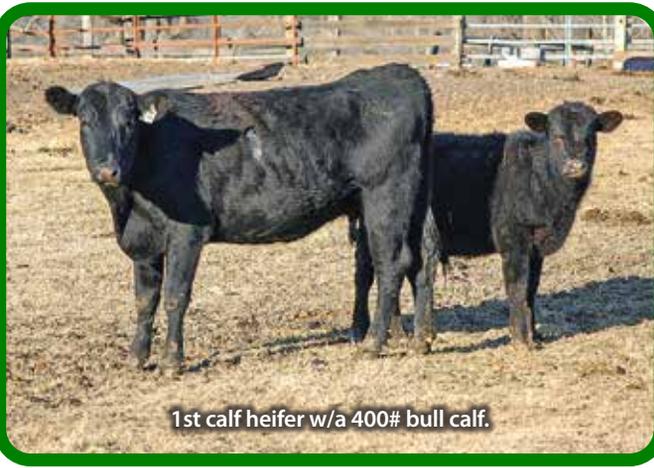

Cow will have reg. papers – her heifer calf sells as purebred.

A good selection of future herd sires – grow your own.

What would you change about her other than her address.

1st calf heifer w/a 400# bull calf.

This 1st calf heifer w/fresh baby – what will they look like in belly deep grass come this spring?
