(20) 1st calf heifers with October calf
@ side - Angus, BWF, Simmental X, & Star
5–these heifers were bred to Angus CE
Knollcrest bull, medium to large frame
cattle, short hair, easy going,

(36) Bred Heifers -Angus & Star 5 based
heifers, bred to calving ease bull or compos-
ite CE bull – some Pharo influence, these
heifers will calve @ 2-years of age with larg-
est percentage of these heifers being Black,
BWF & a few Smokes & Red, frame size 5
¾, weigh approx. 1200#. All of these heif-
ers are out of proven producers & have EID
buttons, most of these should start calving
week after sale with some calving winter &
early spring, sold with a guarantee to have
a live calf. The criteria for E. B. & Shane keep-
ing heifers back as we keep most of the col-
ored heifers – we can breed them to black
bull & get black calves.

Note: these heifers were selected from 550
head+ group, the sibling mates of heifers
have performed excellent @ the feed yard

with big percentage going into CAB & grad-
ing Choice or better.

PROVEN Jr. MATRONS coming w/6th calf–
Selling **(37)** head of proven jr. matrons.
This is our entire herd of cows that are
'19-year models, due to calve November
& December, bred to Springfield Angus &
Angus bulls, M & L frame cattle, average
weight 1375# & have produced a calf every
year in the same time frame- consist of
Angus, Angus X, Red Angus, Simmental X
Red Roan, P & P. All have excellent udders,
good feet, lots of depth & spring in the rib
to handle forages, cows sold with a guaran-
tee to have a live calf, all have EID buttons.
For the past 5 years every one of these cows
had a calf, got up & protected it from the
coyotes – this proves they are protected
mothers.

BULLS (2) Commercial Angus bulls, com-
ing yearlings, were selected from a large #
of counter parts, very few were left as bulls.

**All cattle on annual vaccination Pyramid
5 program, cattle will have EID buttons.
Cattle have been kept in electric fence;
some have been exposed to a one-strand
electric poly wire.**

KEEP 'EM KIND – E. B. will again offer the
KEEP 'EM KIND option on his cattle. At buy-
er's option, E. B. will offer to purchase first
offspring of his cattle at this sale – steers
will carry a \$35.00 premium and heifers
will carry a \$75.00 premium above weekly
livestock market average. Calves need to be
weaned between six to nine months of age
& follow a program similar to BQA require-
ments. Listen carefully sale day– E.B. could
annuity up some more.

**Owner's Note: Welcome to our 25th
Annual Sale!** It again gives us great pleasure
to be able to offer cattle that have proven
themselves time after time to be good pro-
ducers & we feel that they will continue to do

Without the ideal female we would
not get the best eating steaks.

Be a few of the Roans that have milk udders
that make a dairy man look twice.

25+ years of trying to improve cattle is
what has been done & still learning.

Her next calf will be black.

Back door biscuits are
always the best.

He is 4 ½ months old, if he grows to
his ears he'll be a big boy

Head to head they are a match

So fertile these cattle might drink
upstream from the bull & get w/a calf.

At our farm the female takes
most of the spotlight.

the same for the new owners. We are using what we think are the best genetics available to produce cattle that will prove maximum performance in cold weather & also perform in the hot humidity in the summer. Please give us a call if you have any questions. We look forward to serving all our returning customers and earning the business of our new customers too. If there is anything we can do to make your experience better, please do not hesitate to contact us. We're grateful for this chance to earn your business. **We thank you for being a part of our 25th Annual Influence Commercial Female & Bull Sale.** Reaching 25 years in the cattle business is a milestone we couldn't have achieved without your support. We truly value your business and wish you the best of luck with your new Harris genetics!

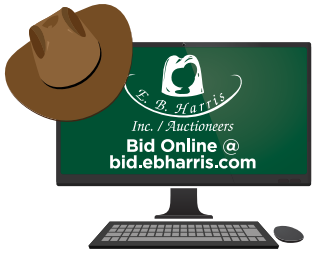

- E.B. & Shane Harris

Also Selling Jack donkey, 4½ months of age, raised w/cattle.

At the end of the day, we are only happy when you are.

**Cattle Sell
With A Guarantee That's
Yet to Be Matched.**

When it's all said we still sell the steers by the #.

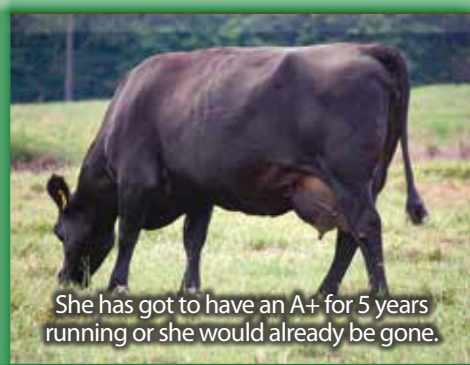

If your cattle are so thin they can stand under the powerline & be in the shade – here is a chance to change that w/capacity.

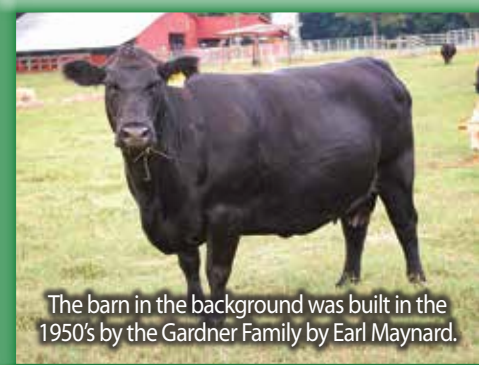

#'s weaned makes a difference – also how many times will she do the same?

Which cows the most \$\$\$ over their lifetime?

She has got to have an A+ for 5 years running or she would already be gone.

The barn in the background was built in the 1950's by the Gardner Family by Earl Maynard.

Hybrid vigor, hair coast, capacity all add up on payday.

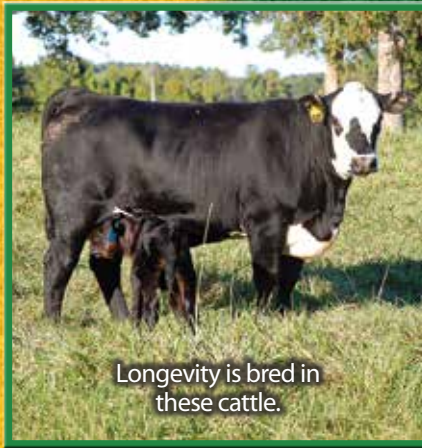

It's proven if you have fescue, short haired cattle will get along better.

Which cows wean the most #'s of calves over their life time?

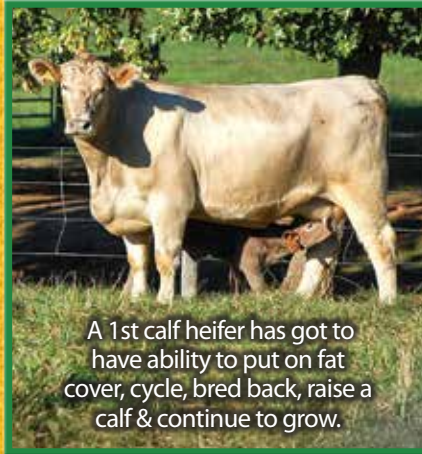

He ain't no sissy.

Longevity is bred in these cattle.

If -U- are looking a young bull that will grow on grass, minerals, water, w/short hair give a gander here.

A 1st calf heifer has got to have ability to put on fat cover, cycle, bred back, raise a calf & continue to grow.

The up & coming whipper snappers are learning in a farmer's classroom outside.
