Real Estate Auctions Work Because...

- The seller chooses the date the property will sell.
- They create competition among buyers; auction prices can exceed the price of a traditional real estate transaction.
- Auctions bring interested parties to a point of decision; they must act now or lose the opportunity to purchase.
- They require potential buyers to pre-qualify for loans.
- Properties are sold with a “no contingency offer to purchase.”

If you are thinking about selling contact Massart Auctioneers Inc. to see what the auction method of marketing can do for you!
