- › BANK PORTFOLIO
STRUCTURED SALES

Through our Lender Advisory Services, we have enabled financial institutions to better plan and time their projected business plans. Auction marketing allows lenders to pre-determine the timing and the terms and conditions under which an asset is traded. Furthermore, structured bid events allow multiple assets to be sold at one auction thereby allowing sellers to make portfolio decisions rather than decisions made through piecemeal sales. A seller can have their property sold in as little as 60-90 days **at the highest competitive values.**
