

STATE OF TENNESSEE
DEPARTMENT OF ENVIRONMENT AND CONSERVATION
Division of Ground Water Protection

Inspection Letter

On 12-8-92, an investigation of the subsurface sewage disposal system, which does not include plumbing and other fixtures preceding the septic tank, was performed at 4206 Florence Rd. (location), Ruth (city), (county)

Owned by Anna Scruggs lot # 7A King Alexander Tract

At the time of the investigation the following observation(s) was (were) made:

- There was no evidence of sewage or effluent outcropping to the ground surface.
- Sewage or effluent from the sewage system was outcropping to the ground surface.
- The house appeared vacant; therefore, the performance of the sewage system when typically loaded, cannot be realistically evaluated.

A thorough search of our files indicate the following:

- The sewage system was inspected and approved by a representative of this Department. The system was approved for 3 bedrooms using an estimated absorption rate of 45 minutes per inch or a percolation rate of _____ minutes per inch.
- The sewage system was inspected and disapproved by a representative of this Department.
- No record of the site evaluation could be found.
- No record of the sewage system construction or approval could be found.
- The site was evaluated on _____ and determined unacceptable for subsurface sewage disposal.
- A repair was attempted to the subsurface sewage disposal system on _____. These modifications do ___ do not ___ meet the minimum standards of this Department.

REMARKS: Suggest Filling in deep depressions over Field lines
