Notes:

The square footage numbers constitute an approximation due to occasional rounding. Thus they are not guaranteed to be 100% accurate. Bidders are welcome to conduct their own measurements if the wish.

Square Footage Calculation

$$\begin{aligned} A &= 28.5' \times 36.25' = 1,033 \text{ sq. ft.} \\ B &= 11.5' \times 5' = \underline{57 \text{ sq. ft.}} \\ &= 1,090 \text{ sq. ft.} \end{aligned}$$
